Welcome to the Environmental School "Sulam Tsor"

Hello and Shana Tova to everyone

We thought to write to you about our school.

Since we have a lot to write about we chose a few things ...

Our school is located in kibbutz Gesher Haziv and most of the Kibbutz and Moshav kids from the area go to our school. (Rosh-Hanikra, Hanita, Matzuba, Betzet, Lohamei-Hagetaot, Regba, Shavei-Zion, Liman, Beit-Ha'emek, Sa'ar, Oshrat, Ben-Ami, Bustan-Hagalil) and we have a few kids from Shlomi and Nahariya (nearby town and city).

Carmel: Our school is one place combining both junior and high school (7th to 12th grades) 786 students all together. The school is divided into three "houses", meaning each two grades are close together. There is the 7th and 8th grades house, the 9th and 10th grade house and the 11th and 12th grade house. Each has a teachers' room and a coordinator.

A community recycling center in our school

Golan: Our school has been acknowledged for its' contribution to environmental awareness and has received certificate for being a “**Green**” school. We have a large recycling area for more than a dozen recycling options. We have a greenhouse for our biology lessons and we collect rain waters from the roof in large black containers and then pump them to several bathrooms in our school. We also have some constructions made of recycled tires which we enjoy sitting on, during our breaks.

**Creating a
beautiful corner
with the help of
students from the
USA**

Removing Asbestos

Our Solar Panels

Nitzan: Every Tuesday we stay in school until 4 p.m. for afternoon activities that we choose, such as: art, science, photography, gym, music, movies, soccer, basketball, volleyball, games, theatre, robotics and more...

مشروع مشترك بين
مدرسة "سلم تصور"
ومدرسة "شيخ دنون"

שיתוף פעולה בין
בי"ס "סולם צור"
ו"שיח' דנון"

Volunteering: sending gifts for lonely soldiers, helping raise money for the 12th grade's trip to Poland and teaching computers to senior citizens and visiting children with special needs and retirement homes.

Jaden: We also have some pretty cool stuff and one of them is the science program called "Atuda" in Hebrew (high level learning). To get into the "Atuda" you have to pass the tests, and if you do, you can go to special computer lessons, physics and to high level math lessons.

Shira: Every 7th grader gets a laptop and works with it throughout high school.

We learn with the laptop English, Math, Hebrew and more subjects – we love it!!!

Sahar: Usually in our long days we buy food in the school cafeteria. The cafeteria sells schnitzel, falafel, candies, toasts and soft drinks.

We celebrate holidays and go on field trips around the country. We look after our beach. We also have soccer, volleyball and basketball tournaments.

THINK GLOBAL ACT LOCAL

"To inspire and guide the peoples of the world in the preservation and enhancement of the human environment"

Stockholm Declaration June, 1972

Looking forward to hearing from you and getting to know you better.

Shalom – שלום

Happy Sukkot חג סוכות שמח
